THEME: PRODUCTIVITY PLATFORMS

Problem Statement

“WHAT IF FORGOTTEN RECEIPTS BECAME FINANCIAL INTELLIGENCE?”

THEME RATIONALE: LEVERAGES GENAI VISION AND PRODUCTIVITY AUTOMATION TO TURN PASSIVE DATA INTO ACTIONABLE INSIGHTS

Modern consumers generate hundreds of receipts, subscriptions, and warranties but managing them is completely broken, we:

- Forget return deadlines and lose refund opportunities.
- Miss warranty expirations and pay for avoidable repairs.
- Overpay because they don't track price drops.
- Get charged for subscriptions they don't even use.
- Rebuy essentials too late or too often.

Despite having powerful AI today, post-purchase management, remains manual fragmented, and reactive.

Students & Young Professionals

Subscription & budget tracking

Working Professionals

Warranty & purchase management

Families

Recurring essentials & appliance tracking

Frequent Online Shoppers

Returns, price drops & receipt management

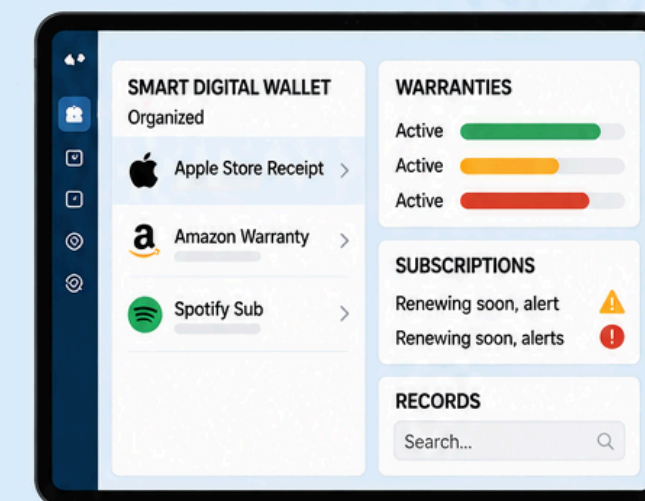

(THE PROBLEM)
FRAGMENTED & REACTIVE

(THE SOLUTION)

SMART, ORGANIZED, PROACTIVE ASSISTANT

Happy, organized user manages everything seamlessly on a sleek dashboard.

SMART ALERTS
Never miss renewals, refunds or price drops.

STAY ORGANIZED
All receipts, warranties & subscriptions in one place.

SAVE MONEY
Avoid unnecessary charges and claim what's yours.

PROACTIVE ASSISTANT
We track, remind and help you take action automatically.

CURRENT SOLUTIONS & GAPS

FROM PASSIVE STORAGE TO INTELLIGENT ACTION.

CURRENT SOLUTIONS

MOST EXISTING APPS ONLY ACT AS DIGITAL STORAGE TOOLS RATHER THAN INTELLIGENT POST-PURCHASE ASSISTANTS. THEY HELP USERS SAVE RECEIPTS OR TRACK EXPENSES, BUT THEY DO NOT ACTIVELY MONITOR PURCHASES, AUTOMATE ACTIONS, OR PROVIDE PROACTIVE FINANCIAL SUPPORT.

Existing apps mainly focus on:

Expense tracking

Receipt storage

Budget management

Subscription reminders

- EXISTING APPS MAINLY FOCUS ON:
- EXPENSE TRACKING
 - RECEIPT STORAGE
 - BUDGET MANAGEMENT
 - SUBSCRIPTION REMINDERS

As a result, users still lose money,

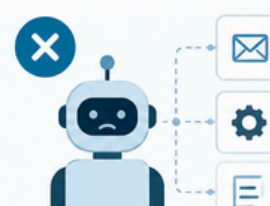

WHAT'S MISSING/BROKEN

- DO NOT ACTIVELY MONITOR PURCHASES AFTER CHECKOUT
- LACK INTELLIGENT AUTOMATION
- CANNOT PREDICT REPURCHASES OR DETECT PRICE DROPS
- REQUIRE MANUAL TRACKING OF WARRANTIES & RETURNS
- DO NOT AUTOMATE CLAIMS, CANCELLATIONS, OR REORDERS
- PROVIDE INSIGHTS, BUT NOT PROACTIVE ACTIONS

Do not actively monitor purchases after checkout

Lack intelligent automation

Cannot predict repurchases or detect price drops

Require manual tracking of warranties & returns

Do not automate claims, cancellations, or reorders

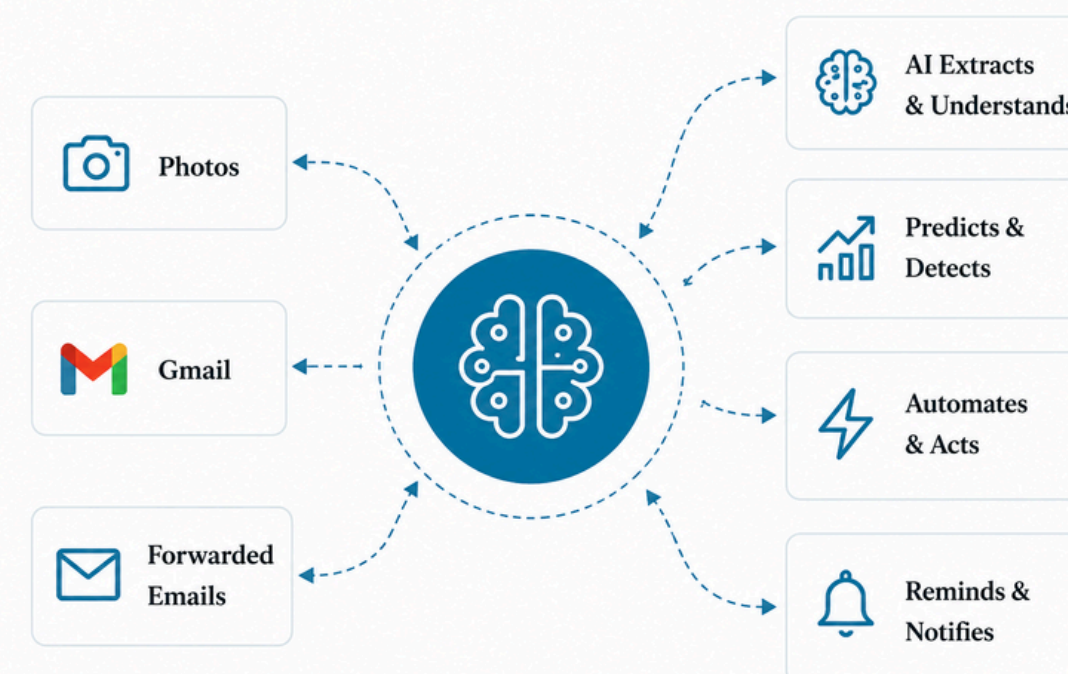

Provide insights, but not proactive actions

OPPORTUNITY

RECEIPTVAULT AI ENGINE

TRANSFORMS RECEIPT TRACKING. INTO AN INTELLIGENT AI-POWERED ACTION SYSTEM.

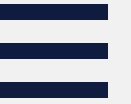

OpenClaw AI

Analysis

OUR SOLUTION

ReceiptVault transforms passive receipt tracking into intelligent action. Instead of just storing purchase data, our system uses AI (powered by OpenClaw) to continuously monitor every receipt and make decisions on your behalf. It tracks deadlines like returns and warranties, predicts when consumables will run out, detects price drops, manages subscriptions, and even files claims or reorders products automatically. By combining real-time monitoring with proactive automation, ReceiptVault ensures that nothing is missed—and that every purchase continues to deliver value even after checkout.

Smart Receipt Capture

- Auto-import from photos and gmail and Whatsapp
- AI extracts items, price, store, and dates
- Manual entry for offline purchases

Deadline Intelligence

- Tracks returns, warranties, exchanges
- Predicts and alerts before expiry
- Daily monitoring of prices

Auto-Reorder System

- Detects usage patterns of consumables
- Automatically reorders or asks for approval
- Works across Amazon, Blinkit etc

Warranty Automation

- Files claims automatically
- Attaches receipts + fills forms
- Tracks and follows up on claims

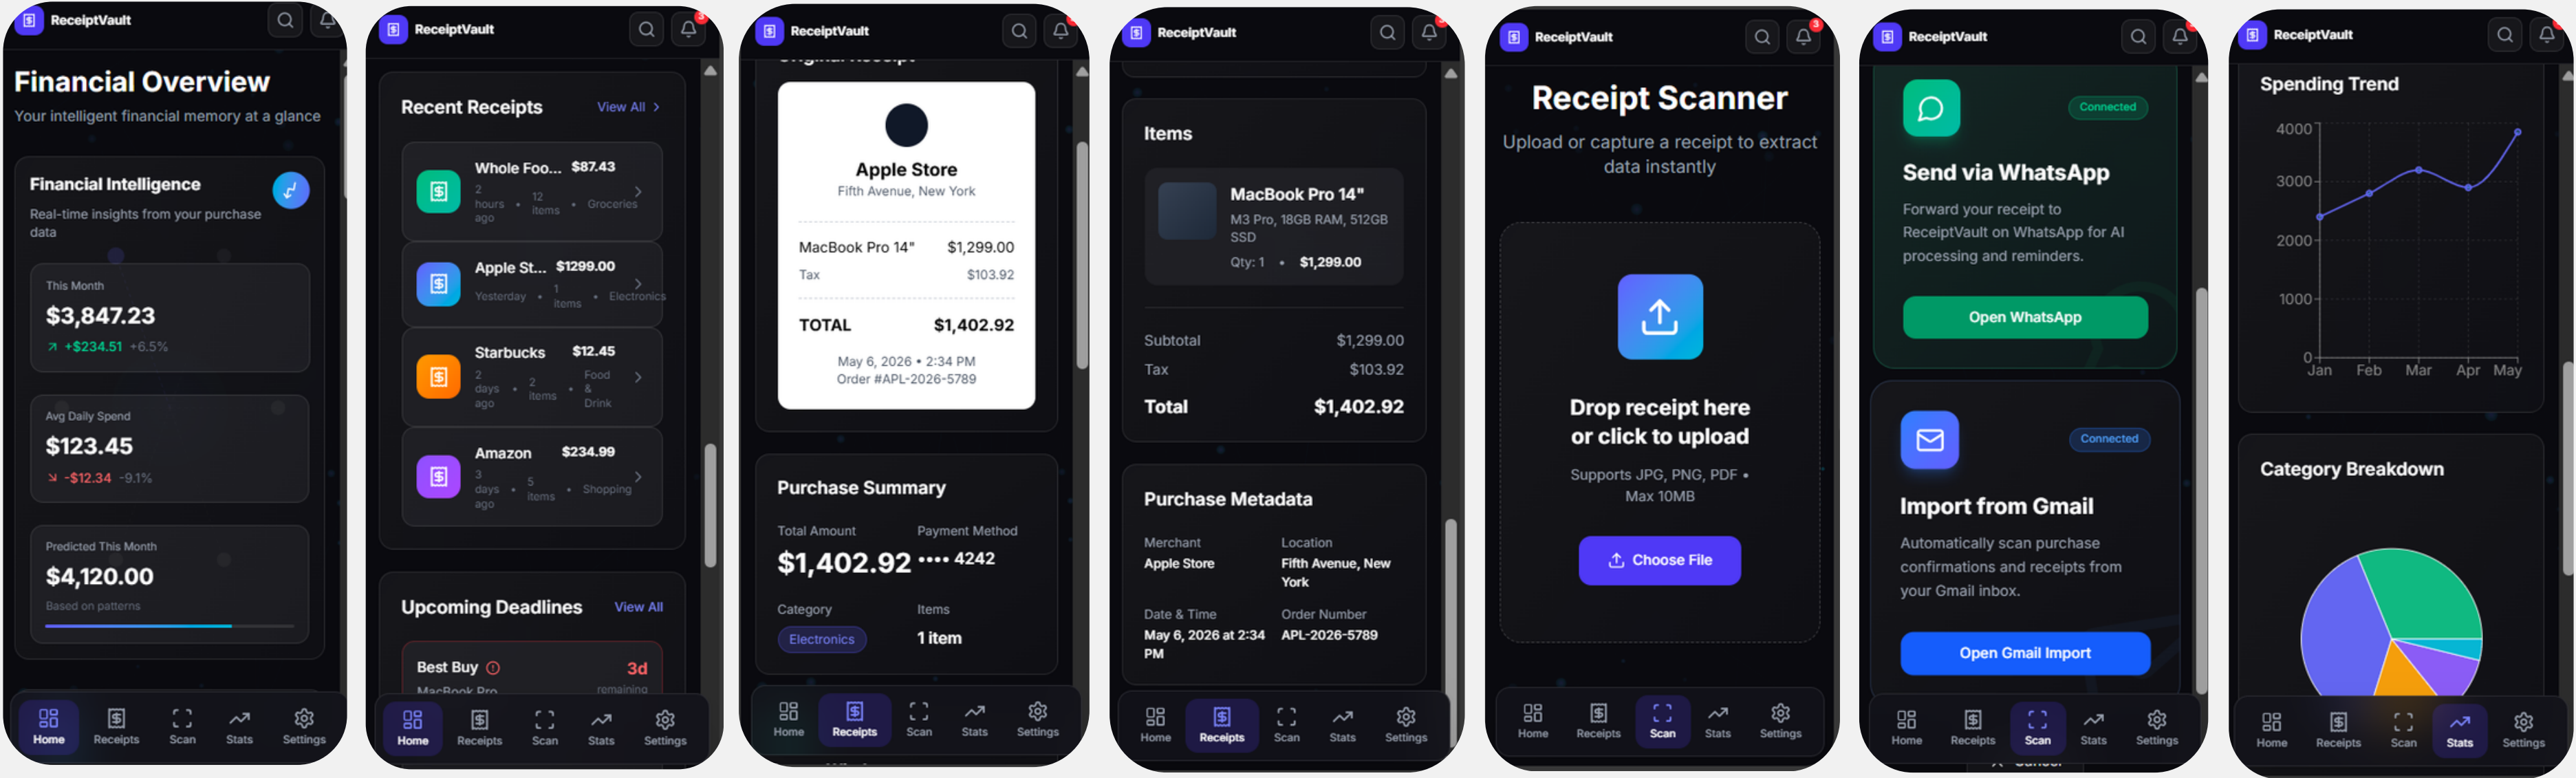

Spending Intelligence

- Category-wise analytics
- Savings tracker & warranty coverage
- Subscription spend insights

Subscription Control

- Detects recurring payments
- Smart reminders before renewal
- Auto-cancel on user command

DEMO / PRODUCT WALKTHROUGH

DEMO LINK: [ReceiptVault demo.mp4](#)

OPENCLAW ORCHESTRATOR

- AGENT BUILT ON CLAUDE (VISION + SONNET)
- USES TOOL APIS TO DECIDE, PLAN, AND TRIGGER ACTIONS
- RUNS DAILY VIA CRON + MANAGES TASKS WITH REDIS

AI INTELLIGENCE

- CLAUDE VISION → EXTRACTS RECEIPT DATA
- PINECONE → LEARNS PATTERNS & ENABLES SMART PREDICTIONS

EXECUTION LAYER (ACTION ENGINES)

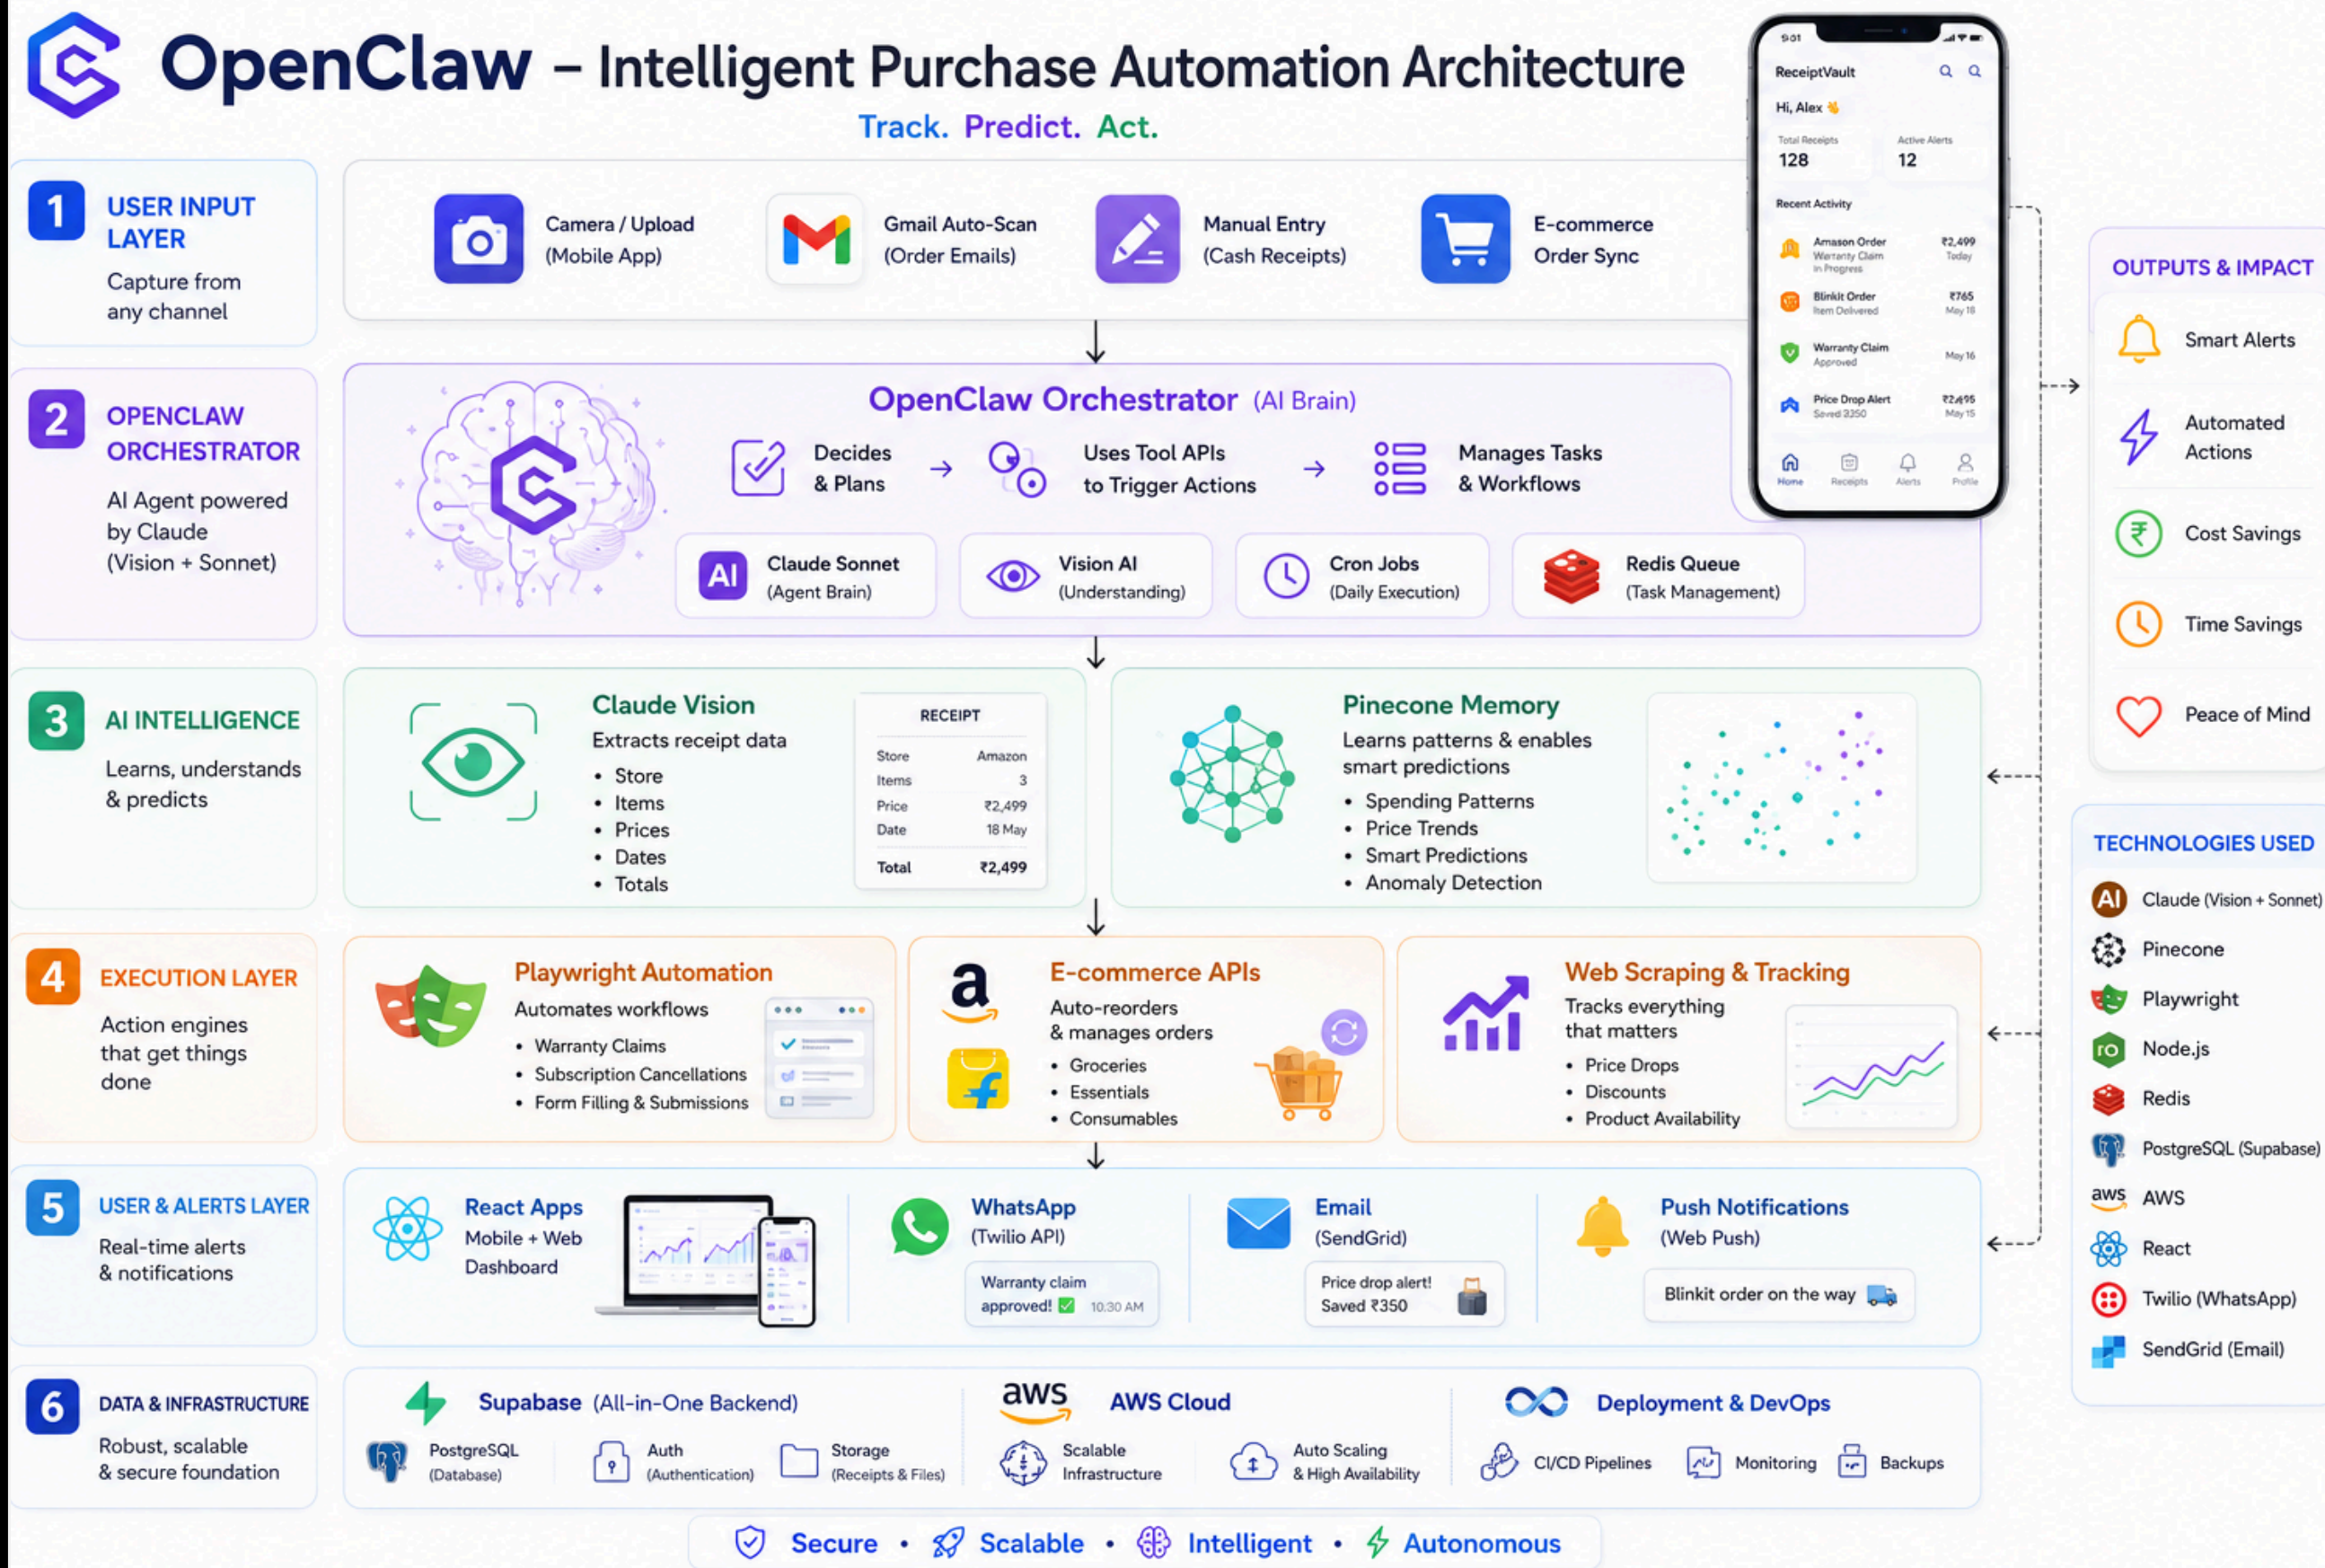

- PLAYWRIGHT → AUTOMATES CLAIMS & CANCELLATIONS
- E-COMMERCE APIS → AUTO-REORDERS PRODUCTS
- WEB SCRAPING → TRACKS PRICE DROPS

USER & ALERTS LAYER

- REACT (MOBILE + WEB APPS)
- WHATSAPP (TWILIO), EMAIL (SENDGRID), PUSH NOTIFICATIONS

DATA & INFRASTRUCTURE

- SUPABASE (POSTGRES SQL + AUTH + STORAGE)
- AWS (SCALING & DEPLOYMENT)

IMPACT AND USE CASES

IMPACT:

SAVES USERS MONEY AUTOMATICALLY

RECEIPTVAULT ACTIVELY PREVENTS FINANCIAL LOSS BY DETECTING PRICE DROPS, AVOIDING UNWANTED SUBSCRIPTION RENEWALS, REMINDING USERS BEFORE RETURN WINDOWS CLOSE, AND HELPING USERS CLAIM WARRANTIES BEFORE EXPIRY.

REDUCES MANUAL EFFORT

INSTEAD OF MANUALLY TRACKING RECEIPTS, WARRANTIES, SUBSCRIPTIONS, AND REORDERS, USERS GET A FULLY AUTOMATED ASSISTANT THAT MONITORS EVERYTHING IN THE BACKGROUND AND TAKES ACTION WHEN NEEDED.

TURNS PASSIVE RECEIPTS INTO INTELLIGENT ACTIONS

TRADITIONAL APPS ONLY STORE RECEIPTS. RECEIPTVAULT TRANSFORMS EVERY RECEIPT INTO ACTIONABLE INTELLIGENCE USING OPENCLAW-POWERED AUTOMATION AND DECISION MAKING.

CREATES A FULLY AUTOMATED POST-PURCHASE EXPERIENCE

FROM DETECTING EXPIRING CONSUMABLES TO AUTO-ORDERING PRODUCTS AND FILING WARRANTY CLAIMS, THE PLATFORM AUTOMATES THE ENTIRE POST-PURCHASE LIFECYCLE.

IMPROVES FINANCIAL AWARENESS

USERS GAIN DEEP VISIBILITY INTO SPENDING PATTERNS, RECURRING COSTS, WARRANTIES, AND SAVINGS THROUGH INTELLIGENT DASHBOARDS AND PROACTIVE INSIGHTS.

PREVENTS MISSED OPPORTUNITIES

- USERS NO LONGER FORGET:
- WARRANTY CLAIMS
- RETURN DEADLINES
- SUBSCRIPTION CANCELLATIONS
- PRICE-MATCH REFUNDS
- CONSUMABLE REORDERS

USE CASES

Smart Auto-Reordering

Detects your purchase pattern, predicts when it will run out, and auto-orders before you run out.

You usually buy every
30 days

Estimated to run out in
5 days

 Auto-order placed on
Amazon

DIFFERENTIATION

- Transforms passive receipts into autonomous AI-driven financial actions
- Continuously monitors purchases and proactively saves users money
- End-to-end post-purchase automation across claims, subscriptions, returns, and reorders
- Learns user behavior patterns to deliver predictive and personalized automation

STRONG MOAT

- AI-powered post-purchase intelligence with autonomous actions
- Continuous learning system that improves with every user interaction
- Cross-platform automation across receipts, subscriptions, claims, and reorders
- High user retention driven by continuous savings and proactive automation

STRATEGIC VALUE FOR SAMSUNG

ReceiptVault enhances the Samsung ecosystem by bringing **AI-powered post-purchase intelligence** and automation that creates real value for Samsung and its users

Enhances Samsung's AI Ecosystem

- Aligns with Samsung's Galaxy AI vision through intelligent automation
- Expands AI usage beyond assistance into autonomous actions
- Demonstrates real-world productivity applications of AI agents

Wallet & Commerce

- Smart receipt and warranty management integration
- potential
- Enables post-purchase intelligence for Samsung users
- Creates opportunities for AI-powered commerce experiences

Device Engagement

- Continuous background automation increases ecosystem stickiness
- Works seamlessly across Samsung phones, tablets, and wearables
- Smart notifications and reminders improve daily productivity

Massive Data Advantage

- Tracks real purchasing behavior, replacement cycles, and brand preferences.
- Enables smarter recommendations, forecasting, and retail optimization.
- More valuable than social data because it reflects actual buying intent.
